Job Description

The NBRHC Department of General & Family Practice has opportunities for physicians to join existing care teams to practice comprehensive family medicine, that includes hospital inpatient care.

The NBRHC Department of General & Family Practice is an efficient and collegial department that is actively engaged in our community and plays an important role with hospital care. Members provide hospital inpatient care to their rostered patients and share in the care of admitted orphan patients. Our physicians belong to Family Health Organizations and Family Health Groups, working together to reduce the frequency of inpatient on-call work.

Applicants are required to be certified, or eligible for certification, by the College of Family Physicians of Canada (CFPC), and be licensed or eligible for licensure through the College of Physicians and Surgeons of Ontario (CPSO). The organization is an affiliated academic teaching centre with the Northern Ontario School of Medicine (NOSM). The preferred candidate would be expected to participate in teaching undergraduate and postgraduate medical learners.
