

ANNUAL REPORT

North Bay Regional Health Centre

2022–2023

Annual Report 2023:

Message from NBRHC CEO and Board of Directors

As we mark the end of COVID-19 as a crisis and enter a new era, we are looking forward to shifting our focus back to the core business of our Hospital.

After three years of dedicating nearly all our efforts to pandemic response, it is refreshing to once again allocate resources to things like growing and supporting our programs, restarting the work on our Quality System, and investing once again in our people.

Implementation of our most recent Strategic Plan is well underway as we recognize strategic and operational excellence, share our continuous quality improvements and celebrate our people and their successes.

All of this will help ensure we can continue to provide the best care possible to the communities we serve.

We are grateful for the many people that are part of our NBRHC community— our vision of exceptional care, delivered with compassion cannot be realized without the continued support and engagement of our employees, physicians, volunteers, partners, patients, families, caregivers, and communities.

Paul Heinrich
President & CEO

Jamie Graham
Board Chair
